

CS 501 D700

Semiautomatic carton sealer: the tape sealing on the top and on bottom flaps of american type boxes, fixed sizes and easy and fast manual regulation. This machine is fitting especially for high, short and irregular size boxes and if associated with the loading and unloading roller it becomes an easy and economic packaging workstation.

The boxes are fed by four lower side belts, driven by a single motor ensuring a smooth carton transport. The changeovers are fast and easy through adjustments by handles.

The adjustments for the different formats are carried out using flywheels.
