

CS MH 2A 650

Semiautomatic carton sealer: the tape sealing on the top and on bottom flaps of american type boxes, fixed sizes and easy and fast manual regulation, if associated with the loading and unloading roller. It becomes an easy and economic packaging workstation. The machine, when combined with automatic devices for centring and regulating the boxes flow, could also work in lines not controlled by operators.

The boxes are fed by four lower side belts, driven by a single motor ensuring a smooth carton transport, the regulations for the various formats are carried out automatically by pneumatic cylinder.

Automatic self-dimensioning carton sealer with manual boxes positioning

Width from 200 to 650 mm.,

Height from 200 to 650 mm.

Machine with head for sealing tape with width mm.50

Tension V.220 mono-phase Hz.50, power Kw.0,40

Air consumption/cycle NL. 1 a BAR 6

Overall layout dimensions including protection devices mm.1155 x 920

Transferbelt velocity 20 mt/minute

Timer stand by for switching off and stand by belts.

Machine weight 150 Kg.

Working table height adjustable from 650 to 750 mm

Colors: ral grey 9006 and ral blue 5013
