SM 8060 big	<p>Thermoshrink wrapping machine with chamber.</p> <p>maximum sealing dimension mm 800 x 600</p> <p>maximum product height mm H 150/200 depending on the W and L</p> <p>usable material single-fold PVC or POLYOLEFIN</p> <p>work surface height mm 850 (with carriage)</p> <p>electromagnet for closing the chamber while thermoshrinking</p> <p>voltage 220 V. single-phase</p> <p>required power 4 Kw</p> <p>including machine support carriage</p> <p>machine weight 130 kg</p> <p>hourly production rate 200/400 pieces</p> <p>simple and smart operator panel</p> <p>4 sturdy wheels, 2 of which with brakes, for easy displacement</p>
	 <p>The image shows a blue and grey thermoshrink wrapping machine, model SM 8060 big. It has a large roll of white PVC film on the right side, which is being fed into the machine. The machine has a control panel on top with a red emergency stop button and several other controls. The machine is mounted on a blue base with four wheels, two of which have brakes. The top lid is open, revealing the internal sealing mechanism.</p> <p>SM 8060 big</p>
