

WM 2000 AWE

Automatic wrapping machine open turntable:

Open rotating table for loading with transpallet at 90°,180°,270°

rotating table mm 1500

Maximum load of table **Kg. 1000**

Control digital electrical panel

Soft starting and indexed stop of the turntable

Digital and separate rpm upper and lower adjustment

Wrapping cycles upwards/downwards

Pallet height sensing photocell

Manual and automatic system

Table rotation speed adjustment 0/10 rpm

adjustable speed of the reel film dispenser

Maximum pallet dimensions 1000X1200X2300H

Maximum reel dimensions: diameter mm 300 height mm 500

Film thickness from 12 to 35 micron (other thicknesses to be tested)

Dispenser with magnetic clutch adjustment film tension from control panel

Power supply 220 V single-phase installed power Kw. 1

Power supply system 220 V single thermal magnetic circuit breaker 0,5 ampere for industrial use required

Lateral film reel to wrapping the lower part of the pallet

Weight wrapping machine 600 Kg.

Colors ral blu 5013 grey 9006

Dimensions of wrapping machine 2900X1660X2800H model 180°

Packaging dimensions 1750X300X800H model 180 °

Wrapping cycle with stop to insert cup

reset start stop on off

Manual control of rotation table
