

WM 2000 BF 1800

Automatic wrapping machine closed turntable:

Rotating table diam. mm 1800 with remote control

Maximum load of table **Kg. 2000**

Control digital electrical panel and management by PLC SIEMENS

Soft starting and indexed stop of the turntable

Digital and separate rpm upper and lower adjustment

Automatic film inserting/cutting

Pallet height sensing photocell

Manual and automatic system and starting with remote control

Adjustable turntable speed from 0 to 12 rpm

adjustable speed of the reel film dispenser

Maximum pallet dimensions 1500X1000X2300H

Maximum reel dimensions: diameter mm 300 height mm 500

Motorized pre-stretch set at 250 % adjustable by control panel

Power supply 220 V single-phase Kw. 1,25

Required:

1)Power supply system 220 V single thermal magnetic circuit breaker 0,5 ampere for industrial use

2)compressed air system

Lateral film reel to wrapping the lower part of the pallet

Weight wrapping machine 800 Kg.

Colors ral blu 5013 grey 9006

Dimensions of wrapping machine 2750X1800X2800H

Packaging dimensions 1800X3000X800H

reset start stop on off
