

**WM 2300 B**

**Rotating arm** wrapping machine:

Soft starting/stopping

Indexed stopping arm

control and management by PLC

**Pallet height sensing photocell**

Different preset wrapping systems

**Motorized pre-stretch film fixed 250 % adjustable from control panel**

Security system at the base of the arm

Stretch film h 500 outside diameter 280 mm

Power supply : single phase AC220V 50/60 Hz 1.25 Kw

Air pressure: 0.4 – 0.6 MPa

Drotating diam. 2000 mm minimum pack dimensions 600x600 mm

Speed table: 0-15 rpm (adjustable)

Pallet hight: minimum 600 mm maximum 2400 mm

Max load weight: unlimited

Weight machine 1200 Kg.

colors ral blue 5013 grey 9006

Machine dimensions 4000X2000X3650H

Standard PLC: LG. Optional SIEMENS

Inverter Schneider
