

OMSTRAP

WM 2000 A FLAT

Automatic wrapping machine with closed table low table having:
rotary table diameter mm 1680
table height from the ground 30 mm
Portata max **Kg. 1200**
Digital electrical control panel
Progressive start and indexed stop of the table
Digital and separate selectivity/upper revolutions
winding cycle ascent descent
photocell reading pallet height (optional black for dark pallets)
Automatic manual function
table rotation speed adjustable from 0 a 10 rpm
Adjustable film reel trolley speed
maximum pallet dimensions 1000X1200X2300H
maximum diameter film reel usable mm 300 height mm 500
film thickness from 12 to 35 microns (other thicknesses to be tested on the product)
frictioned roller trolley for double section film pull adjustment
standard voltage 220 V single-phase installed power Kw. 1
220 V mono system required with life-saving magnetothermic
0.5 amperes for industrial use
side film reel for wrapping complete pallet plinth
peso macchina 600 Kg.
colours RAL Blue 5013 grey 7001
Lateral ramps of ascent on 3 sides as standard
bandage cycle with waiting for hood insertion
reset start stop on off
manual table rotation control
manual control of the ascent and descent of the reel trolley

**OPTIONAL
BLACK
PHOTOCELL**

optional for reading black or dark products

Vedi dedicated tab for other options

Ramps on 3 sides
