

OMSTRAP

**WM 2000 BF DW
door and window**

Special automatic wrapping machine with closed table having:
rotary table diameter mm 1650
portata max **kg. 2000**
kit of raising and support of necks at the base
**electrical control panel for digital control and management with
PLC SIEMENS**
Progressive start and indexed stop of the table
Digital and separate selectivity/upper revolutions
Pilot operated e-T Trica press with pedal
photocell reading neck height (optional black for dark necks)
table rotation speed adjustable from 0 a 12 rpm
Adjustable film reel trolley speed
bandable neck dimensions
altezza H min 800 mm max 2800 mm
larghezza W min 400 mm max 1500 mm
spessore D min 35 mm max 170 mm
maximum diameter film reel usable mm 300 height mm 500
pre-stretch unit fixed motorized film 250 % reg fine panel
standard voltage 220 V single-phase installed power Kw. 1,25
Necessary :
**1) 220 V mono system with life-saving magnetothermic
0.5 amperes for industrial use**
2) compressed air system
Side film reel for full jaw cutting lower part of the neck
peso macchina 700 Kg.
colours RAL Blue 5013 grey 7001
